

EurO₃zon® is a registered trademark of the non-profit association EurO₃zon ivzw.

EurO₃zon is supporting ozone equipment manufacturers, end-users, etc., in order to comply with legal requirements arising from various legislations including the Biocidal Products Regulation (BPR, Regulation (EU) No 528/2012).

Ozone Approved in Europe!

Contact EurO₃zon today to secure your future with ozone as biocide

On 1 July 2024, ozone ('ozone generated from oxygen') will be approved as an Active Substance (AS) for the Product Types 2, 4, 5 and 11 for use in Biocidal Products (BP) in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council, as published in the Draft Commission Implementing Regulation.

Getting access to the EurO₃zon AS dossiers is still possible. LoAs are offered to all interested parties.

The purchase of a Letter of Access (LoA) is organised via the so-called LoA shop <https://www.euro3zon.org/Loa/IndexBpr>

EurO₃zon offers the solution for securing your future in ozone disinfection business for the next 20+ years (The approval of ozone is at first granted for 10 years, but is renewable).

Why to choose for working with EurO₃zon ivzw?

- **EurO₃zon's AS dossiers** are proven very complete and **cover an extensive list of uses** which are in turn **all supported by high quality data sets**.
- A data gap analysis and testing planning was worked out and a pre-submission meeting with the German Competent Authority (BAuA) was already held on 20 February 2020.
- **EurO₃zon's BP authorisation dossier** will be completed and submitted to the authorities well ahead the approval of ozone as AS.
- **Associate Membership** can be made open for companies that are interested to work with EurO₃zon ivzw for the BP Authorization, but the first commitment in this process is the purchase of a LoA.
